

ADAMS

KEYSWITCHES AND PUSHBUTTONS - IN STOCK

Survivor Keyswitches

All Adams keyswitches use Survivor base and are built with tough Lexan® housings. Choose from 2-, 3-, and 4-position configurations. 2-position switches are rated B300, Q300. All locks are 5-disk tumbler type.

Key movement:

12:00/3:00 for 2-pull models

9:00/12:00/3:00 for 3-pull models

6:00/9:00/12:00/3:00 for 4-pull keyswitches

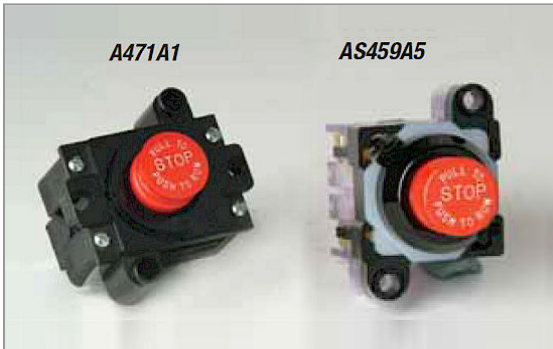

We stock various keyswitch combinations. Please call.

Emergency Stop Switches

Original style survivor stop switches mount horizontal or corner-to-corner. Red plastic button, 1/8" high halo. New style switches have 1/8"H and 1-3/8" diameter halos.
